General Halleck.

The correspondents of the New York press have not earned a title to implicit credence. Their contradictory assertions concerning the Army of the Potomac, at this time, are entirely in character with their past revelations, and worthy of equal trust. One scribe who accompanied General Stoneman in his raid gave us full particulars of the immense damage inflicted by our cavalry upon the enemy's communications and depots, and the Richmond papers confirmed the salient features of the story. A *Tribune* writer on the other hand, severely censures Stoneman, and disparages his exploits. The correspondents of the *Evening Post* and the *World* assert that a serious disagreement has occurred between Halleck and Hooker, and the *World's* man says that after a visit to Washington Hooker has returned to the army with full authority to conduct a campaign in Virginia without Halleck's interference. The *Tribune's* correspondent says the Army of the Potomac is "undeniably in good spirits and condition," and undoubtedly superior in numbers to the enemy. On the other hand, a correspondent of the *Commercial Advertiser* magnifies the losses of the army in the recent battle, and asserts that a "majority of the Generals want another commander. "Every check in Virginia is followed by a controversy and a cloud of conflicting statements, which leave the locality of the truth a problem which the public mind will fail to solve. It is noticeable, however, that while almost every other military man in the service has a host of partisans, the General-in-Chief has very few friends, and, outside of Washington, none of commanding influence. The "conservatives" detest Halleck, for having struck down their idol, McClellan. The extreme "radicals" repudiate him because of his intense negrophobia and his hostility to Fremont, Sigel and Mitchell.

The calm, intelligent, unconditional Union men, who care nothing for men but want the rebellion suppressed as soon as possible, content themselves with questioning the military talents of the General in chief. They desire to know upon what his reputation is based. What great victory has given him a good title to the chief command of our armies? And furthermore, conceding that Halleck is a great General by force of natural genius and careful study of the "bookish theory" of war, anxious inquiries are made as to the extent of the authority he exercises over the national armies in the field. Does the General-in Chief plan the campaigns and undertake to conduct the war by telegraph? Or does he limit himself to indicating the objects of the campaign and the lines of operation? The latter is a necessary work for somebody at Washington. We must have unity of plan, and certainty as to the objects of our military movements. The former—"fighting battles by telegraph," as old Sumner contemptuously phrased it—must render success an accident and an exception. A Napoleon would not conduct a campaign in that way, even if he had not been too much of a practical warrior to attempt it; and we are quite sure that whatever may be the scope of Halleck's abilities, the cocked hat of the great Emperor would not sit well on his cranium.

Each war develops its own Generals. Halleck is one of the men we accepted at the beginning of the contest as qualified for a great commander, because we knew nothing of war, and the urgent need of Generals left us no choice. A people who could agree to regard a young man who had never commanded a regiment as a second Napoleon might also adopt Halleck, on the strength of a respectable compilation and the indorsement of the venerable Scott, as the prince of strategists. But the country has made giant strides in military experience during the past two years, and the people are not disposed, at this date, to accept any leader with unreflecting faith. General Halleck, it cannot be denied, does not possess the confidence of the nation. He should take the field and endeavor, at least, to win his spurs. There is no other way of silencing his assailants—no other road to the confidence of the country. As General-in-Chief he has his choice of commands. Closet generalship is at a heavy discount. If General Halleck thinks he can handle the Army of the Potomac or the Army of the Cumberland with more skill and success than Hooker or Rosecrans let him try it, and if he should triumph his country will applaud and at once concede his right to the supreme direction of our military operations. But no office general, with a fame purely fictitious, ought to be any longer tolerated in attempts to conduct campaigns by telegraph.

ROYAL MAIL
Steam Packet
Company's Agency,
For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,
Yates Street.

THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the **Pacific Mail Steamship Company's Vessels and the Panama Railroad.**

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall **direct** being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France.

Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

THE NEWS.

Nothing since the fall of Sumter has been more startling than the news brought by the steamer on Sunday. The apparent inactivity on the Rappahannock since the battles of Fredericksburg and Chancellorville has resulted in a raid by Lee into Maryland and Pennsylvania, that has cast a gloom over the great cities of the North. When the great city of Philadelphia, with 500,000 inhabitants, suspends business—when the Mayor calls upon the citizens to close their places of business, to take up arms to defend the sacredness of their soil—the alarm must be very general, and the danger very great. Even New York and Brooklyn, with their million of inhabitants, were aroused in the night by a call to arms. Making every allowance for the state-craft that would turn Lee's raid into a means to arouse the Northern people to a state of defence, yet it is apparent that there is much and good cause for the alarm. Hitherto the army of the Potomac under Scott, McDowell, McClellan, Pope, Burnside, and lastly Hooker, have been unable to cope successfully with the veterans under Lee. Now that the Confederate chief has forced Hooker to fall back towards Washington, making his base of supplies at Alexandria, about eight miles below, it shows a weakness in the Federal army for offensive operations that is too palpable not to be observed. Although Lee has not attacked the Federals on the Rappahannock in their strongholds, yet he marches his forces by their right flank, and throws his brigades into Maryland and Pennsylvania, a hundred and fifty miles or so in advance of his former base of operations, and does so apparently without fear of any serious consequences from the Federal general. Such daring carries with it a power that is equal to half an army, and following on the heels of late defeats, cannot but be depressing to the Northern army, and the cause of intense alarm to the northern people. We cannot believe for a moment that the object is an attack on Washington. That city is evidently too well fortified and garrisoned for the Confederates to attempt its capture by assault or siege. Some other strategical object is to be attained. If Hooker evacuated Washington to stop Lee's advance, that city might fall an easy prey. But we are told the army cannot leave Washington. We presume the meaning of that is that there are no men to spare from its defense. Besides it is not improbable that the main body of Lee's army are within striking distance of Washington in case Hooker evacuated the line of its defence. The Confederates in Maryland and Pennsylvania are no doubt small bodies in comparison with the whole of Lee's force. From all we can glean, Hooker appears to have a line of defence from Harper's Ferry, stretching down to Alexandria, and is moving northerly paralell to Lee. Thus he protects Washington and keeps his communications with Baltimore and Philadelphia open.

Pope and McClellan went over the ground before; and in all probability Hooker will reap as barren results. His forces under Milroy and others at Winchester and Martinsburg have been driven from their positions in the line of Lee's advance, whilst Hooker we are told was fighting with Lee at Bull Run—the third great fight at that noted battle-field. The object of Lee's advance is however a difficult problem to solve. When he last entered Maryland, the Marylanders were expected to rise, but did not and were afterwards insulted by the Southerners—branded with cowardice. Is a rising now anticipated? Is a counter-revolution in that State possible?—is it only waiting for Confederate countenance and support? We can scarcely believe that much is anticipated from that source by Lee. The object it seems to us has a higher range than mere military success. It is evidently designed to show European States at this juncture the ability of the Confederates with a view to hasten recognition; and also to convince the people of the Northern States that the war can be carried to their own firesides. But the very fact that they are able to show their power to spread desolation among the Free States induces us to believe that Lee will not advance as far into Pennsylvania as we may be led to suppose. If he did the Southern cause would be injured, for every man in the Free States would be aroused to protect his home, and a mass of men—though undisciplined—would soon be raised to compel the invaders to retreat. Nothing but a conviction that the Free States are utterly demoralized—willing to lay down their arms at the feet of a conqueror could induce the Confederates to beard the densely populated North on their own soil. Such a game would be too dangerous to play; and is opposed to the defensive policy hitherto held by the South. In all probability Lee's advance is but a raid to show his power, and return with fresh supplies. We are informed that Ohio is threatened with invasion. But we cannot believe for a moment that Lee is going there. If in Ohio, Indiana, and Illinois the elements of a counter-revolution exist, others than Lee are likely to set it in a blaze. Whatever advance is made towards Ohio is more likely to come from Bragg in trying to outflank Rosecrans as Buell was last year. In fact one object of Lee may be to cover movements to re-inforce Bragg, so that Johnston may succor Pemberton at Vicksburg. The latter, it is evident, is hard pressed by Grant; and except relieved either by Johnson or from Arkansas and the west side of the Mississippi, the fall of Vicksburg will occur within sixty days. Within that period we expect to chronicle exciting news; but with all, we can perceive no sign of immediate peace. Even recognition by France or England, without armed intervention, would not bring peace to the South nor to the North. Nothing but a counter-revolution in the North, or a battle with such decisive results, that the North would be unable to take the field are likely to make the Free States open negotiations for peace, on the basis of the independence of the South. So the war still appears to be a long one, one of sheer exhaustion.

ALBION IRON WORKS

Chatham and Discovery Streets,

Near Dickson, Campbell & Co, New Warehouse Store street.

VICTORIA, V. I.,

JOSEPH SPRATT, PROPRIETOR.

In order to meet the wants of Vancouver Island, British Columbia, and Puget Sound, the Proprietor of the ALBION IRON WORKS has been induced to expend a large sum of money in erecting a

MACHINE SHOP

—AND—

Foundry,

On such improved principles as to enable him to do work with unusual despatch, in the best manner, and at most reasonable rates

There is no similar establishment on the Pacific Coast, that is larger, or better prepared to execute every kind of Machinery, Engines, Blacksmithing, and Iron and Brass Castings. No one need go to San Francisco to fill orders, as the work can be executed at the ALBION IRON WORKS as well, at as low rates, and with as much despatch.

In the Machine Shop there are Bolt-cutting, Planing, and heavy turning Machines.

In the BLACKSMITH SHOP there is a powerful steam blast which enables the Proprietor to do Heavy Blacksmithing.

The attention of persons, and particularly miners, about purchasing Steam Engines, is directed to the Improved Portable Engines, constructed at the Albion Iron Works These Engines can be successfully worked for Threshing, Hoisting, Pumping, Pile-driving, or for any other use where small power is required. They are simple in construction, have an Economical Boiler, and are considered the best portable engines in use. They would be invaluable auxilaries to the Miners for Hoisting and Pumping.

All orders for high and low pressure Steam Engines, Grist and Quartz Mills, Pumping Machinery, Blacksmithing, Brass and Iron Castings and everything done at a Machine Shop and Foundry, can be filled at the Albion Iron Works.

Particular attention paid to Steamboat Work and general repairs.

A CARD.

THE UNDERSIGNED, WHO HAVE just returned from the mines on the Stekin River, desire to publicly express their thanks to the Captain of His Imperial Russian Majesty's Corvette RYNDA, for kindly receiving them on board and giving them a passage to Victoria.

To both the Captain and the Officers we are deeply indebted for this kindness and for the attention and care we have received, especially those of us who were sick with the scurvy.

CITY COUNCIL.

MONDAY, 22d June, 1863.

Present—His Worship the Mayor, and a full Board.

THE PUBLIC LANDINGS.

A communication was received from the Surveyor General's Office, signed by William Pearse, Esq., for the Surveyor General, stating that he would be happy to meet any officer appointed by His Worship to point out the boundaries of the public landings at the foot of Johnson street, and on the west side of Wharf street.

Agreed that the same be received and placed on file.

Mr. Copland suggested that as this was an important matter, the Council should be all present to see the boundaries pointed out.

Mr. Lewis objected to large committees. They never did anything. He was in favor of it being left to the City Surveyor to put down permanent landmarks.

Capt. Reid spoke in favor of the Council going in a body and seeing the ground marked out.

Mr. Copland moved that the Mayor and Councillors should meet the acting Surveyor General, and view the boundaries as defined by him.

Mr. Lewis moved an amendment, in favor of leaving it to the City Surveyor, which was lost, and the original motion carried.

CITY POUND.

A communication was read from John Geritsen, stating that he possessed a lot on Humboldt street, 60 by 100 feet, suitable for a Public Pound, which he would lease at $20 per month.

Referred to the committee appointed.

WHARF STREET CONTRACT.

From the City Surveyor certifying that Messrs. Hicks and Bawden had done work on Wharf street, between Fort and Bastion, to the extent of $750, and were entitled to $600.

Referred to Finance Committee.

CITY DRAINAGE.

Mr. Lewis on behalf of the committee appointed reported in favor of a wooden culvert being laid from corner of Yates and Government street to Johnson street.

A desultory discussion ensued, in which several Councillors took part on the subject of public sewers and public nuisances, when the Council was called to order by Mr. Stronach.

CITY SEAL.

On motion of Mr. Copland it was agreed that Messrs. Wright and Sanders be paid the sum of $25 for the design of the city seal.

Mr. Copland remarked that this payment ought to have been made long ago but had been overlooked in the Report of the Finance Committee.

CORPORATION BOOKS.

Mr. Coplend moved that two books be kept containing the cash transactions of the Corporation, instead of one as at present.

Referred to the Finance Committee.

FIRE DEPARTMENT.

Mr. Lewis moved the following resolution:

That the sum of $250 per month be appropriated for the use of the Fire Department, commencing on the 1st June, and to terminate at the end of three months from the meeting of the Legislative Assembly, should they fail to make the legislation necessary to the Fire Department being transferred to the city.

Mr. Lewis advocated the appropriation of the sum, which he observed would not cover the monthly expenditure of the Department, nor was it as much as the Council ought perhaps to devote for the purpose, but it would materially help them. He eulogized the Department as the most useful institution in the city. Most of the department were, he said, not wealthy men, and it could not be expected that they should incur the expenditure they now do with the wear and tear of clothes and receive no assistance from the city for protecting property. He thought the Council would do right to vote the money, and appealed to the chairman of the Finance Committee to know whether there were funds in hand sufficient for the purpose.

Mr. Copland was in favor of the motion, but thought that the mover ought to state definitely the source whence the appropriation should be made.

Mr. Hicks was also in favor, and thought it should be derived from the Real Estate Tax.

Mr. Stronach supported Mr. Lewis' motion as it stood.

The motion was then put and carried, and the Finance Committee reporting sufficient funds at present in hand, payment was ordered to be made to the Fire Department from the 1st June, inst.

His Worship remarked that it gave him great pleasure to see the motion pass.

SURVEYOR'S OFFICE.

On motion of Mr. Searby it was agreed that a committee be appointed to fit up the room now used as a Committee Room for the use of the City Surveyor.

Messrs. Searby, Copland, and Hicks, were placed upon the committee.

Council adjourned to half-past 7 p. m. on Monday next.

SLIPPED THEIR CABLES.—Two seamen were brought up in the Police Court yesterday charged with desertion from the ship Strathallan. The captain did not wish to press the case, he did not believe the men intended to desert, but having previously lost some men through desertion he had refused them leave ashore, when they watched their opportunity, "slipped their cable," and got three sheets in the wind." The prisoners expressed their willingness to return on board and after being mulcted in the sum of five shillings each for being drunk and disorderly, were handed over to the master.

AID FOR POLAND.—We learn that the Polish Committee in California have appointed our well known citizens Mr. M. Prag and Mr. John Malowanski to collect aid to further the cause of unhappy Poland in her present struggle with Russia for freedom and self-government. The brave Poles enjoy the sympathy of every true-born Englishman everywhere; and we trust that an appeal on behalf of their suffering country to the inhabitants of these colonies for substantial aid will meet with a generous response.

MASONIC.—The Masonic brethren of this City, are invited by the Lodge at New Westminster, to assist in the installation on the 24th, St. John's day. The Caledonia will start on Wednesday, which will afford the brethren of the "Mystic tie," a good opportunity to enjoy the hospitalities of the fraternity in New Westminster, and a pleasant excursion.

FROM SAN JUAN.—The sloop John Dickson, Captain Creelman, arrived yesterday morning from San Juan. She reports one man missing from the American Garrison. When last seen, he was going down to the shore to bathe, and has not been heard of since. Boats had been searching for him for the last two days. It was possible he may have left the Island in some boat or canoe.

EXPORT OF TREASURE.—By the Sierra Nevada, Messrs. Wells, Fargo & Co. shipped $27,371, and the Bank of British Columbia $28,873, making a total of $56,244.

LUMBER.—The schooner Industry arrived on Sunday night from Sayward's mill, Cowichan, with 25,000 ft lumber.

LOCKED UP.—Two men have been arrested by the Police on suspicion of being concerned in an offence the nature of which has not transpired.

FOR NEW WESTMINSTER.—The steamer Otter will leave the Hudson Bay Company's wharf at 9 a. m. for New Westminster.

FOR SAN FRANCISCO.—The Sierra Nevada sailed yesterday at about 5 p.m. for San Francisco via Portland.

☞ The gunboat Forward left yesterday for the British garrison at San Juan.

☞ The steamer J. W. Moore left yesterday for New Westminster.

☞ The Eliza Anderson arrived from Port Angelos this morning at two o'clock. She brought no later news.

JAPAN.—Mr. Wm. P. Blake, Geologists and Mining Engineer, arrived by the Russian Corvette Rynda, from Hakodadi, *en route* to San Francisco. We learn that Mr. Blake was engaged by the Japanese Government in 1861 to superintend and direct the working of mines in that country. Coal, copper, silver, gold, lead and other minerals abound on the Islands. Mr. Blake penetrated further into the interior than any foreigner had yet done, and was treated with uniform courtesy, attention and kindness. Everything was quiet at Hakodadi when Mr. Blake left. A demand for indemnity would be made, it was said, by the British ships of war. The Japanese were concentrating at Yeddo, and it was thought that in case the demand was resisted, the Island of Kusin, one of the richest of the group, might be taken possession of. The Japanese Government possess well disciplined troops, and have been purchasing ships and munitions of war for some time past.

CANADA.

[FROM OUR TORONTO CORRESPONDENT.]

TORONTO, May 18th, 1863.

POLITICAL—A GENERAL ELECTION.

We are in the midst of a general election, blazing away at a fearful rate. Tory is pounding away at Radical; Radical at Tory. Everything is in confusion, topsy-turvey, upside down. We don't know exactly where we are, there is so much noise, smoke, confusion, hard swearing and hard drinking, that we have well nigh lost both latitude and longitude. To tell you of everything which has conduced to get us into this position would take up too much space, so that I must perforce confine myself to the main facts. Parliament opened on the 12th February, and for a time things appeared likely to go on very quietly. The measures proposed by the government of Mr. John Sandfield McDonald, were too much in accord with the policy of Mr. John A. McDonald, to cause any great party fight between the Opposition and the Ministry. Still we had some curious and exciting combats. Mr. Matthew Crooks Cameron, the Tory member for North Ontario, who last election beat "honest Joe Gould," moved a resolution affirming the principle of representation by population. In the debate which followed, Mr. Adam Wilson, Mr. Howland, and Mike Foley, were all very severely handled for their alleged desertion of this principle for the sake of office. Especially did the Commissioner of Crown Lands, Mr. McDougall, "catch it." Not a speaker was there on the Opposition side who had not got many hard words to say of him. Matthew Crooks Cameron, John Hillyard Cameron, and John A. McDonald, bore very heavily upon him. His defense did not mend the case at all. He alleged in effect, that the reform he had advocated for so many years would be useless if it were gained, and that he had never believed in it. The apology of the others was this: They said that individually they desired representation by population as much as ever, but that, in consequence of the opposition of the Lower Canadians, to continue to press it, would be to give the Tories a lease of power unlimited in its duration. They therefore preferred to take office, to leave the question in obeyance for a time: meanwhile endeavoring to place the finances of the Province in a better condition. And, truly, if the reckless expenditure of the McDonald-Cartier party had lasted much longer, there was nothing left for us but hopeless bankruptcy. But because this was the case, Reformers did not see the necessity of opposing Mr. Mal. Cameron's resolutions. They therefore voted for it, and in doing so were joined by a considerable number of the Opposition proper. Ministers all voted against it, so that with their aid, with that of the Lower Canadians in a body, and with that of the recreant Tories, who have ever betrayed Upper Canadian interests—chief among whom continues Mr. J. A. McDonald—the motion was lost. The question was thus disposed of for the session; but the sight of Reformers like Foley, McDonald, Wilson, and Howland, voting against it produced a great sensation; and had it not been for subsequent events, it is doubtful whether any one of them could ever be returned for our Upper Canadian constituency again. The next noticeable feature in the Parliamentary record is the introduction and passage of Mr. Scott's bill for extending the privileges of the Roman Catholics in the matter of separate schools. In order to get Lower Canadian support, the Government, when they took office, promised this unjustifiable boon to the Catholics, but they did not bring in any bill of their own. They did, however, so far support that of Mr. Scott as virtually to make it a Cabinet measure. The bill passed, but there was an Upper Canadian majority against it. This was a serious difficulty, because the Government in taking office, as a part of the excuses they offered for abandoning representation by population, pledged themselves not to pass any measure against which there appeared a majority of votes from either section. In short they adopted Mr. J. V. McDonald's double-majority dogma, and here again, the very first measure of importance, they were in a minority of Upper Canadian votes, and to make the matter worse, the majority consisted of their own party, of the men who were aiding to keep them in power. Everyone thought John Sandfield would resign; and the Tories, though the greater part of them had voted for the bill, clapped their hands joyously at the prospect. But they were disappointed. The government retained their seats. John A. McDonald, the chief supporter of separate schools in Upper Canada, waxed indignant, and virtuous. Finding they could not defeat the Government in any specific measure, the Upper Canada Opposition adopted different tactics. They introduced no bills of their own, and when any opposition came up involving Upper Canadian rights. While the main body voted for them. Mr. John A. McDonald, Mr. Canling and others of the Conservative leaders voted against them, thus always keeping themselves in harmony with the Lower Canada members led by Mr. Cartier. At length, in the course of a debate, Mr. John A. McDonald made a fierce attack upon Mr. McGee, and as usual boasted largely of his own points of motive. McGee took him up on that point, and a very fierce wordy war has waged, which ended in McDonald moving for report of a commission which had been appointed by the Government to examine into some of the doings of the late Administration, and which is still sitting. Now, McDonald had not the slightest idea that the report was ready, neither had any of his party. It had been printed in secrecy, and its existence was known only to a few. The conversation to which I have referred took place during the afternoon's session. Upon re-assembling Mr. John S. McDonald quietly pulled a book out of his pocket, of some two or three hundred pages, and laying it open the table said—"Mr. Speaker, I have the honor to present the first report of the Financial Commission." Blank dismay rested upon the countenances of the Lower Canada party, for they were not prepared to see John A. McDonald's challenge so promptly met. There was a pause of some minutes; they talked together in whispers, and at length Mr. John Hare, the member for Montreal Centre, ventured to ask if the document was printed, to which an affirmative reply was given. The revelations were of such a nature as to convince the Conservatives that if the present Government were much longer in power, that each and every one among them would be "killed off," so they determined upon making a great effort to obtain office. And the effect of the report, though it has undoubtedly been to strengthen the Government before the country, was to weaken them in the House, for it threw into opposition all the "loose fists" who had been paid by the late administration for their votes, and these added to those who honestly differ from them, left the Cabinet in a minority. But the question was how to unseat the Government; upon what pretence? There was no bill they could bring in which the Tories stood a chance of carrying. There was no general principle they dare affirm, likely to be voted for by the majority, which the Government would not accept, and they did not choose to move an amendment to the budget, because if it should carry and place them in power, the probability was that they as an administration would have to propose the same thing for which they condemned their opponents. Therefore having no policy of their own upon which they could agree, except to struggle for the fat things of office, they proposed a simple vote of non-confidence without alleging any reason therefor. The debate was a hot one; and lasted three days, at the end of which time the Cabinet was defeated by a majority of four. Again the Tories imagined that they would leap into office, and again they were disappointed. Mr. John Sandfield McDonald, instead of resigning, advised an appeal to the people. He announced the fact in the House, and the intelligence came like a thunder-clap upon the Tories. But they had persuaded themselves that the Governor-General would not grant the dissolution, and acting upon that belief they refused to vote a supply of money to meet the necessities of the country during the elections. This was done by passing a motion for the immediate adjournment of the House. When they met next evening, they proceeded to transact some ordinary routine business, expecting that Mr. J. S. McDonald, the order being got through, would announce in the usual fashion that the Government were attempting to reconstruct in a way which would meet with the approval of a majority of the House; but they were suddenly disturbed by the sound of martial music, and, rushing to the windows, they found that the Governor had come down in state. Immediately afterwards the Usher of the Black Rod made his appearance, and was saluted with thundering cheers by the Government party. The House was then prorogued, and on Saturday the *Royal Gazette* announced its dissolution.

A new Cabinet is now in process of formation. Mr. Sicotte is dismissed, and Mr. Dorion takes his place as Attorney General for Lower Canada. John Sandfield McDonald is still Premier and Attorney General West. I will transmit you by this mail a full list of the new Cabinet if it comes in time. The arrangements for the electoral contest are going on vigorously. Mr. Dorion says he is sure of success in Lower Canada, and the Reformers think they can gain four or five seats at least in Upper Canada. John Hillyard Cameron will be opposed in Peel, and it is probable, defeated as he has, offended the Orangemen by voting for the Separate school bill. John A. McDonald is to be opposed in Kingston by Owen S. Gildersleeve the Mayor, a very popular man, but is to be doubted whether he will be able to beat the astute politician whom he has for an opponent. Benjamin, who added forty pounds to his previously stupendous *corpus* last year, will be opposed in North Hastings by Campbell Wallbridge with every prospect of success. Louis Wallbridge, the new Solicitor-General, will run for his old constituency, South Hastings, and be returned. McDougall has been requested to run against Mal. Cameron in North Ontario, but I do not think he will accept the nomination. (It will take a good deal to pull "Mac" through anywhere.) Dr. Clarke, the reformers, they can upset in North Wellington, and they intend to try to "polish off" Walsh in Norfolk. That county returned a majority for the Reform Candidate at a late election for the Legislative Council, though a small one. George Brown will keep South Oxford probably, but he is wanted in Toronto to run against Crawford, and in Peel to contest the county with John Hillyard Cameron. John Rose will leave Montreal centre and fight Somerville—the only Lower Canadians who ever voted for Representatives by population in Huntingdon. L her Holton, who is Financial Minister in the new Government, will resign his seat in the Upper House, and run for Montreal centre, whatever Rose may do. Dorion will measure minds with Carier in Montreal East, and as he was only beaten by 25 votes last election, he will probably succeed now that he has the Government at his back. McGee runs for Griffintown, and as his hold upon the Irish is as tight as ever, the man who ventures to oppose him will get ducked in St. Lawrence, after Paddy's pleasant way of doing business.

Both "Mike" Foley and D'Arcy McGee, are out of the new Cabinet. No definite reason is alleged for this; but the Opposition say that they are too fond of the "crather," for the comfort of their companions. By the bye I have one good thing to say of John A. McDonald—he has joined the Sons of Temperance, and has already risen to the dignity of Grand Worthy Patriarch of some lodge in Kingston.

I have purposely omitted to mention the name of Adam Wilson in connection with the new ministry. In my last letter I told you of the new judicial arrangements and among other things, that D. Connor had been made a Judge of the Court of Queen's Bench. He only lived to enjoy the honor a few weeks, and was then seized by the hand of death. He has been succeeded by Adam Wilson, late Soliciter General. None, even among his most bitter political opponents, dispute the fitness of this gentleman for the office.

HON. MALCOLM CAMERON.

And now for a little light literature. I do not know whether you will consider yourselves "sold" or not; but the Hon. Malcolm Cameron is dead—to you. Immediately after his return from England he took his seat in the Upper House, and some of his friends, knowing the relations which had been established between British Columbia and himself, got up a petition to the Imperial Government, asking that he might be appointed Governor of the Colony. This petition was in course of signature when Mr. Desbarats, of the firm of Desbarats & Derbishire, Queen's Printers, suddenly died, and Malcolm Cameron was appointed to the place. It is a lucrative office. His seat for the St. Clair division has been filled up by John Wilson, of London, a leading lawyer of the Province, and a thorough "clear-grit," who was elected by acclamation.

THE VERY LATEST.

The new Ministry is complete with the exception of the offices of Solicitor General for Lower Canada, and the Commissionership of Public Works. These places can easily be filled. The following is the list as it now stands: Upper Canada—John Sandfield McDonald, Attorney General; Oliver Mowat, Postmaster General, vice Foley (kicked out). Wm. McDougall, Commissioner Crown Lands; Wm. P. Howland, Receiver General; A. Fergusson Blair, Provincial Secretary; Lewis Wallbridge, Solicitor General, vice Adam Wilson, raised to the bench. Lower Canada—A. A. Dorion, Attorney General, vice Sicotte (kicked out); L. Holton, Minister of Finance, vice Howland, now Receiver General; Isidore Thibaudeau, President of the Council, vice McGee (kicked out); Luc Letellier de St. Just, Bureau of Agriculture, vice Evanturel (kicked out).

A Card.

EDITOR BRITISH COLONIST.—SIR—May I, as the "Original Pieman," be allowed to ask the question whether an acting deputy sheriff is allowed to enter the jury-room when a jury is deciding a verdict, without first intimating to the Foreman his object for so doing?

Again—Is he allowed to leave the door of the jury-room unguarded, whilst he goes away to buy pies?

The reason why I make such an enquiry is, that having gone over to the Supreme Court on Friday last to supply the officials with refreshments, in going away a window was thrown open and some pies were ordered, which, of course, I supplied the parties with, not thinking of enquiring whether they were jurymen or not, or whether jurors were allowed to buy pies or not. Now I would like a just public to decide which is the most culpable—the "Original Pieman" or the acting deputy sheriff?

Later from China.

By the arrival of the ship E. Kimball, 52 days from Hongkong, we (*Alta*) have dates to April 14th, but they contain little of interest.

It is stated that the French Admiral Bonnard landed at Turin, and set out to visit the King of Annan, with the view of arranging the difficulties at Laigon.

The *Friend of China* states that the Chinese disciplined troops had been defeated at Fooshan. Several English officers were killed.

The Japan *Herald* of March 21st, contains the following: Matz Daira Daizea No Kami, or Prince Hizen has purchased the Victoria and Sir Charles Forbes, steamers. He also owns the men-of-war Soenbing, 8 guns; the Nagasaki, 12 guns; the Gazelle, and the bark Armistice. The income of the Prince is said to be $1,500,000 per annum, and he is said to be favorable to the policy of open intercourse with foreigners.

The Utica *Telegraph* has fished up a man in that city, so mean that he has taken to biting the ends of his fingers to save the amount of the new tax on cut nails.

Mexican Intelligence.

NEW YORK, June 12.—The Corsica, with dates from Havana to the 6th has arrived. Reliable news of the occupation of Peubla had reached Havana by the British mail steamer Trent. This news is to the effect that they had not surrendered until its defenders were entirely without food, having eaten their artillery mules and cavalry horses. Their ammunition was also exhausted. Gen. Ortega on May 12 offered to surrender on condition that his soldiers should be allowed to carry their banner and the officers their side arms, and all march to the city of Mexico, the resort of the Supreme Government. This was granted, except as to the latter. Forey ordering them to march to Orizaba, there to await in inactivity the close of the war. On the 17th Forey presented to the officers a document to sign, declaring that they would not mix in the politics of the nation; that they would become neutral during the war; that they would not leave the limits to be assigned to them by the French General-in-Chief, and that they would not communicate with any one without his consent. The officers received this with cries of "Long live Mexico! Death to Napoleon! Death to Traitors!" and then signed a protest that they were not allowed to sign the above by the laws of their country or by military honor.

President Juarez has issued a proclamation announcing a great disaster in the surrender of Puebla, and stating that the capital would not only be defended to the last extremity, but that all places would be defended with vigor; that the nation would wage war without ceasing, under all circumstances, against the odds of an army which was profaning its soil.

Vera Cruz advices report the escape of Generals Ortega, Leave [?] and Mendoza. Other principal chiefs, 300 minor officers and 2,000 privates, with a French convoy, were *en route* for Orizaba—*Weekly Bulletin, June 17th*.

Important from Japan.

WAR IMMINENT BETWEEN GREAT BRITAIN AND FRANCE AND JAPAN.

The bark A. A. Eldridge, which arrived on Friday from Japan, brings dates to the 11th of May from Kanagawa. No papers were received, but from the captain's report and private correspondence it would seem that war was imminent between Great Britain and France on the one part, and Japan on the other. At the time the Eldridge sailed there were 13 British men-of-war, under Admiral Keppel, lying in the harbor of Kanagawa; 2 Dutch frigates; and the French Admiral in his flag-ship—the last expecting hourly the arrival of 2 French frigates. Admiral Keppel had made a demand upon the Japanese government for a large sum of money as indemnity, and the delivery up of the murders of the late Mr. Richardson, failing which, war would be declared. The time given by the Admiral would expire on the 11th May, the day when the Eldridge sailed, up to which time no answer had been made by the Japanese Government. It was reported on the morning of the 12th that if the answer were not satisfactory, the British and French forces would land and take possession of the town for the purpose of protecting the lives and property of foreign residents from the Japanese.

In case of war, the opinion of parties in Kanagawa was that it would be general against all foreigners, which would cause the merchants to leave, and consequently stop all further trade.

[By the arrival of the Curlew we learn that the time had been prolonged to the 26th. ED. COL.]

European News.

FRANCE.

The Paris correspondent of the *Daily Telegraph*, writing under date May 3d, says:

The French papers are very much taken up with English affairs, and, indeed, the Anglo-American complications have created a sensation in Paris second only to that which they must have caused with you. The Bourse, that great barometer, now indicates the danger to be past.

Earl Russell's conduct and language on the Polish question are much praised here, and it is said very generally that M. Drouyn de Lhuys might have learned a lesson of energy and decision from the English Foreign Minister. Apropos of the English note the *Debats* to day, in an article written to show the probability of the Russian reply being "only an evasive answer which, with an air of concluding, in reality will only tend to prolong the situation," and that therefore all the great hopes of peace now expressed by society and the Bourse are utterly groundless, points out that the despatches of Earl Russell "rather justify those who anticipate complications than those who flatter themselves that all is settled," and concludes that, after having written so decidedly, the English Cabinet must be prepared to go all lengths with France and the other Powers.

The Empress last evening paid a long visit to the Princess of Prussia, who is staying at the Hotel Bristol, which is so full of princes and peers that one sees simple commoners driving "empty away" whenever one passes the Place Vendome.

Among other notices of the hour I learn that General Baron Dupin died here on Friday. He is celebrated for having saved the life of the First Napoleon at Schoenbrunn by seizing the arm of the regicide Stabs; he had also fought in all the Napoleonic campaigns—a boast which soon very few will be left to utter. He was, of course, decorated with one of those tardily-issued medals which, from the age of the recipients, were called here "les contremarques de Pere la Chaise."

This month is to see a great flower and a great international dog show (president, M. Walewski) in Paris; and moreover the 3,000 pictures rejected at the "salon" are to be exhibited as a supplementary gallery. A very pleasant change of temperature has sent Paris, divided into three classes, on its way rejoicing. The first is gone to Longchamps, to the races; the second to Versailles, to the waterworks; and the third to Sceaux, to eat, drink and be merry—and dine "up a tree," which there is possible.

PARIS, May 4.

It is asserted that the *Moniteur* will publish to-morrow the text of the reply of Prince Gortschakoff to the despatch forwarded by France upon the Polish question.

The *Pays* and the *Nation* of this evening maintain that the Russian reply agrees to enter into negotiations with the Western Powers upon the proposed basis.

3.20 P.M.—The Bourse continues firm.

THE POLISH INSURRECTION.

THORN, May 3 (Evening).

According to news received here from Warsaw, a rumour was current that the Government intended to issue a manifesto on the 13th inst., ordering the reorganisation of the police, gendarmes and peasants.

The manifesto would, it was said, further order the confiscation of the property of insurgent landed proprietors, and the levying of a contribution throughout Poland.

PRUSSIA.

BERLIN, May 4.

The *Nord Deutsche Zeitung* of to-day denies that Prussia, simultaneously with the second-class German Powers, had been invited by France to join diplomatic action in reference to the Polish question.

The same paper denies the rumour that General Coltz had been dispatched upon a mission to Paris, and declares totally unfounded the intention attributed to Prussia of inviting Austria to join in the Prusso-Russo convention, as stated in the blue-book recently laid before the House of Commons.

ITALY.

TURIN, May 4.

Prince Ruggero Settimo, President of the Senate, and former President of the Government of Sicily in 1848, has died in Malta.

The Government has sent a frigate to convey the body to Palermo.

The *Pungolo* of to-day publishes a despatch addressed by the Minister of the Interior to the perfects, relative to meetings in favor of Poland.

The Minister refers to the debate on the subject in Parliament, and states that the meetings in question are a pretext for agitation, and for obstruction of the action of the Government.

He concludes by enjoining the authorities to dissolve every political meeting of a character to endanger the interior or exterior safety of the State.

SWITZERLAND.

BERNE, May 4.

The Cabinet of Turin has announced to the Federal Government that it will now withdraw the Italian troops from the Swiss frontier, since, after the arrests made in Italy, apprehensions are no longer entertained of a Mazzinian expedition.

AUSTRIA.

VIENNA, May 1.

The Vienna Cabinet, in a note addressed to the Bavarian Government, has acceded, more or less unconditionally, to the protest of the latter against the filling up of the Greek vacancy. If we are to trust a paper in the confidence of the Bavarian Government, the resistance of the latter has been carried to a degree, which places the resignation of King Otho in favor of a prince of his family even out of the question.

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the most simple and certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing.

Dr. Baker's Pain Panacea

IS composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

If you have Pain in the Stomach or Bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dispepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhæ, or a relaxed state of the bowels, take a few doses of Pain Panacea and they will soon be restored. If you have a painful swelling bathe the parts freely and you will soon relieve the pain, and the swelling will be reduced. If you have a severe toothache, apply the Pain Panacea on a piece of cotton, and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Side, Breast, Back, or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a Caked Breast, apply the Pain Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls on you horse, apply the Pain Panacea; it will take out all the inflammation, and heal the sore in a short time. Sold by all the principal druggists, and by

HEALTH FOR A SHILLING.
Holloway's Pills.
Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the while system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness gen excess of any kind, whether mental or phy effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease. These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas.

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents. Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water. The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague

BRITISH COLONIST.

Japanese Hatred of Christianity.—A curious instance of the obstinate hatred of the Japanese towards Christianity occurred a short time ago at Nagasaki. The Dutch Government had at the request of the Japanese Government sent over a small steam machine which had been made by the engineers, D. Christie & Son, who had, according to custom, cast the name of their firm on some conspicuous part of the machine. When the Japanese officials read this, they sapiently concluded that the words had some reference to Christ, the son of David and that the machine was intended to make the Japanese Christians by steam power! At first they positively refused to admit the obnoxious article; and even when the matter was explained, they did not seem at all at ease concerning it. The same officials seized a copy of Longfellow's poems, on the plea that "Evangeline" had been written by one of the Evangelists, whose work it was not permitted to introduce into Japan! All bibles and religious books on board of vessels arriving at a Japanese port must be put in a case called the Bible case, which is carefully sealed up and preserved under lock and key by the officials, until the vessel is ready to leave; it is then returned to the captain. This absurd regulation is now, however, little more than a formality, as the Bible case generally contains merely a few stones packed in saw-dust.—*Fraser's Magazine.*

A Prophecy in Jest.—The following extract from a burlesque article in the New Monthly Magazine for 1821, entitled, "Specimen of a prospective newspaper, A. D. 1796," is curious: The army of the Northern States (of America) will take the field against that of the Southern provinces early next spring. The principal Northern force will consist of 1,490,000 picked troops. Gen. Congreve's new mechanical cannon was tried last week at the siege of Georgia. It discharged in one hour 1,120 balls, each weighing 500 pounds. The distance of the objects fired at was eleven miles, and so perfect was the engine that the whole of these balls were lodged in the space of twenty feet square." A subsequent article in this specimen states that "by means of a new invention, Dr. Clark crossed the Atlantic in seven days." How little did the writer anticipate that, in forty years, these to him wild fancies, would be almost realized. It is worth notice that a war between the North and South was anticipated.

ROUTES TO CARIBOO.

Every Person Should Know

THAT THE

Shortest, Best and Cheapest

ROUTE

TO THE

CARIBOO MINES

IS VIA THE

YALE AND LYTTON
WAGON ROAD!

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar	25	Miles
" Boston Bar to Lytton	32½	"
" Lytton to McLean's	47½	"
" McLean's to the Junction of the Wagon Roads	19	"
Distance from Yale to Junction,	124	Miles

COMPARE THE ABOVE

With the following distances set down by Lillooet Shippers:

From Douglas to Lillooet	110	Miles
" Lillooet to Junction	47	"
Distance from Douglas to Junction	157	Miles

The Junction

Is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

Than if he went by the Douglas-Lillooet Route.

☞ **Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.**

Messrs. DUHIG, LANE, BLACK, and other Carriers of Merchandise, advertise to

Carry Freight from Yale to Lytton

$20 Per Ton Less

Than is or will be charged on the Douglas-Lillooet Route.

THE NEW AND SPLENDID STEAMER

"Reliance"

Connects with the Victoria Steamer

"Enterprise"

And conveys her Freight and Passengers to Yale at greatly reduced Rates.

Shippers

Desirous of getting Freight through to Cariboo this season are advised to

Shun the Douglas-Lillooet Route!!

☞ And are also referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that **15, 20,** or even **30** Days is a reasonable time to convey Freight from Douglas to Lillooet.

Five Days only are Required

To carry Goods from Yale to Lytton, and

Shippers are Assured

That if Freight is carried from Douglas to Lillooet for Two Cents per lb.,

CARRIERS ARE PREPARED TO

FREIGHT FROM YALE TO LYTTON

With Safety and Despatch, for

One Cent Per Lb.!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke in trying to get goods through that route.

☞ Remember the Cranford affair, and steer clear of extortion and delays.

Travel the Yale and Lytton Wagon Road to the Cariboo Mines.

☞ New and Commodious Hotels have been erected at convenient distances along the entire length of the Route, where First Class Accommodations for both man and beast are bestowed at moderate rates.

☞ FOR CHEAPNESS, DESPATCH, EASE and SECURITY choose the Yale and Lytton Route in preference to all others in British Columbia.

GOOD NEWS FOR EVERY ONE

KNOWLEDGE IS POWER. IF YOU DESIRE to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, what is the reason? Simply this, a want of information on the subject. The civilisation of the present day renders some aid to nature in the preservation and restoration of health indispensably necessary; and the only question is, whence is the required help to be obtained? Undoubtedly, by using

Kaye's Worsdell's Vegetable Restorative Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily eradicate all disease from the body, *by* purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

MEDICAL.

THE WORLD'S FRIEND!

Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Pills: ere many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

"*From the Kilrush Advertiser, June 2nd,* 1860.

Benjamin Cox, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, if properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates the system through the pores, acts in unison with Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.

The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy, however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they thoroughly regenerate every function, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly.

Bad Legs, Bad Breasts, and Old Ulcers.

This invaluable Ointment was never known to fail in the cure of any wound, any sore, or any ulcer,—as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs
Bad Breasts
Burns
Bunions
Bite of Mosquitoes and Sand-Flies
Coco-bay
Scalds
Chiego-foot
Chilblains
Chapped Hands
Corns (Soft)
Cancers
Contracted and Stiff Joints
Elephantiasis
Fistulas
Gout
Glandular Swellings
Lumbago
Piles
Rheumatism
Sore-throats

DR. J. COLLIS BROWNES

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful Sedative Anodyne and Antispasmodic remedy discovered by Dr J Collis Browne M.R.C.S.L., (ex-Army Med. Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury-square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it invaluable. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

As a proof of its efficacy, a few extracts from numerous Testimonials by Physicians and Surgeons are given:

From W. Vesalius Pettigrew, M. D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V. Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Extracts from the General Board of Health, London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm, one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

Caution.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne, except in sealed bottles, having the Government stamp, with the words "Dr. J. Collis Browne's Chlorodyne" engraved thereon. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. Davenport, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s 9d and 4s 6d. ju24w1y
